• MATLAB

FIELDS OF INTEREST

Statistical probability •

Derivatives • History • Politics •

Machine Learning • Linguistics

EXPERIENCE

S&P Global | External Contributor

June 2024 to October 2025 | **City of London, London**

Occasional contributor with a focus on the Sahel region, especially Sudan, researching and writing comprehensive briefs and reports examining regional dynamics, political developments, economic trends, and their implications.

Institute of Contemporary Art | Technical Assistant

Sept 2022 to Sept 2023 | **Piccadilly, London**

Support the administrative coordination of events and exhibitions through accurate record-keeping, cataloguing, and documentation. Maintain organized schedules, inventories, and financial logs related to venue operations. Assist with processing invoices, updating databases, and ensuring all materials, equipment, and records are properly tracked and archived.

Charles Jencks, Architect | Technical Assistant

March 2019 to June 2020 | **Notting Hill, London**

Provide administrative and archival support for a private architectural collection. Maintain and catalogue library materials, develop itemized records, and ensure accurate documentation of assets. Oversee bookkeeping tasks, inventory management, and digital file organization while maintaining orderly systems for efficient information retrieval. Offer general administrative assistance, including logistical coordination and upkeep of physical and electronic based records.

Benikanz Financial | Principal

January 2020 to Present | **Westminster, London**

Micro-sized corporate vehicle I created to interact with brokerage platforms with the aim of investigating and creating software to exploit inefficiencies in short-dated options contracts.

Consultancy | Developer

2015 to 2025 | **Westminster, London**

Providing development services in an individual consultancy capacity, delivering technical expertise on software design, implementation, and optimization. Tailoring highly specific solutions to achieve exceptional robustness and efficiency, including low-level performance enhancements through direct use of assembly where appropriate.

Concordis International | Intern

Summer 2013 | **City of London, London**

Assist with maintaining and organizing project documentation, including filing and archiving reports from fieldwork. Support communication with international grant and aid agencies by preparing correspondence and ensuring compliance with reporting requirements. Help with data entry, updating records, and coordinating logistics for project activities.
